About

- Imagine sushi plates floating sleek and quietly on the surface with no visible chain movement?
- A kaiten conveyor which provides a visually appealing and moving display to your customers?
- A different concept from the traditional kaiten chain conveyor?
- Presenting to you the MODU Magnetic Conveyor, a MODU Food technology which utilizes a fundamental magnetic technology to create an exciting and advanced kaiten conveyor concept. This is a new addition to our extensive range of kaiten conveyors for restaurants, providing another option for restaurant operators in terms of conveyor concepts.
- The sleek design of the MODU Magnetic Conveyor provides for a trendy and forward looking dining concept, which also serves to capture the attention of target customers – getting them to take a second look at your conveyor and restaurant!
- It also provides for a unique dining experience for customers, which will certainly give your restaurant and brand the 'WOW' factor!
- Maintenance is also relatively hassle free for the user, as this system provides for an easy to clean conveyor surface!
